A new comment has been submitted at [socotransmission.com](http://www.socotransmission.com).

COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Agriculture, Residential

Comment:

I am a property owner of a lot in Colorado Land and Grazing Unit BB, Huerfano County, Co. I currently live in Oklahoma and come to Colorado to camp, hike etc. and work on developing a retirement home. My husband and I just today learned of the plan for the new transmission lines. We never received any kind of notice about meetings, etc. We have viewed your website in hopes of educating ourselves about the proposed project. One of the things we enjoy most about our property is the beautiful, unspoiled views we have of Sheep Mtn, Greenhorn Mtn. Silver Mt, the Sangre De Cristo Mts. and many others. WE do not have electricity to our lot and plan on living off the grid when we build. As best as we can determine, our property is within Map 6 and the proposed route as well as the preliminary alternative routes, 54, 55, 56, 57, 58 would all run through and or obstruct our view. Preliminary route 56 appears to slice right through the middle of our property. We are opposed to any of these routes. Our suggestion would be to run the new lines along the same routes as the existing ones. You already have road and easements for these routes. WE would like to be kept informed of future plans and meetings. Thank you. Respectfully submitted, Sandra L. Fudom

I-236-001: Public Involvement Process (In Review)

Your email/letter/comment form has been received and your comment noted. The project is in the planning and environmental review stages. Current project information will be available on the RUS project website, <http://www.usda.gov/rus/water/ees/ea.htm> and the Utilities' project website, <http://www.socotransmission.com/>.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-236-002: Visual and Aesthetic (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts to visual and aesthetic resources from the proposed project and mitigation measures will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-236-003: Project Alternatives (In Review)

Your email/letter/comment form has been received and your comment noted. A range of reasonable project alternatives and mitigation measures including the no action alternative will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
